Index to Volume 33, 2004

Spring, pp 1–86; Summer, pp 87–164; Fall, pp 165–224; Winter pp 225–284.

SUBJECTS

A

Absenteeism, avoidable vs. nonavoidable, 238
Abstracts, 82
Accreditation, specialized, 248
Admissions, automated application services in (potential patterns), 210
  Internet-based prerequisite finder use in (potential patterns), 75
Allied health professions, preventive approach in (potential patterns), 218
Association of Schools of Allied Health Professions, deans and program directors of, 113
Athletic training students, teacher-centered vs. student-centered instruction of (research note), 200
Attitudes, of physical therapy students, toward physical therapy assistants, 10
  of students, toward interprofessional practice, 125
  of students, toward patients' sexual issues (research note), 189

B

Blair, Tony, 42
Book reviews, 164

C

Cardiovascular-interventional technology (CVIT), 95
Career choices, of dietetics students (research note), 51
CD-ROMs, use in physical therapy instruction, 255
  use in physician assistant instruction (research note), 194
Certification, in cardiovascular-interventional technology (CVIT), 95
  of health information management professionals, 167
Clinical Instructor Education and Credentialing Program (CIECP), (research note), 62
Clinical instructors, training programs for (research note), 62
Clinical performance, evaluation of, in physical therapy students (research note), 62
Clinical Performance Instrument (CPI), (research note), 62
Clinical practice, applicability of research evidence in, 230
Clinical situations, sexuality issues in (research note), 189
Coalition of Allied Health Leadership, projects of (leadership development), 144; 145, 150
Collaboration, in health science outreach programs, 174
  role of learning styles in (research note), 156
Community health practice, with community volunteers (potential patterns), 204
Computer-assisted instruction, CD-ROM use in (research note) 194; 255
  in physical therapy education, 255
Computers, use in admissions applications services (potential patterns), 210
Consortium of Institutes of Higher Education in Health and Rehabilitation in Europe (international perspectives), 42
Continuing education, in prevention (potential patterns), 218
Curriculum, disability studies (commentary), 184
  integration of research into (commentary), 132
  online learning approach in, 78

D

Deans, allied health
  attitudes toward specialized accreditation, 248
  leadership development in, 113
Decision making, ethical, 24
Dietetics students, career values of (research note), 51
Disability studies (commentary), 184

E

Economic model, of disability (commentary), 184
Education, allied health
  clinical, in private practice (commentary), 47
  in health information management, 167
  health science outreach programs, 174
  interdisciplinary online learning, 78
  learning communities (research note), 55
  research culture (commentary), 132
  specialized accreditation, 248
  teacher-centered vs. student-centered instruction (research note), 200
Elderly, physical therapy students' attitudes toward, 17
Electronic publishing (editorial), 165; (editorial), 225
Ethics, of decision making, 24
European Union, health care policy of (international perspective), 139
Evidence-based practice, in physical therapy, 230

F

Faculty, new, professional development in (research note), 271
  students' ratings of (research note), 70
Federal government, role in regulation of nanotechnology (view from Washington), 227
Folic acid, physician assistant students' knowledge about (research note), 194

G

Genetics, Internet websites related to (leadership development), 145

H

Health care policy, in Europe (international perspective), 139
Health care system, reform of, in the United Kingdom (international perspectives), 42
Health information management, personnel shortage in, 167
Health literacy (leadership development), 150
Health professions, common issues and approaches in (editorial), 87
Health promotion, in allied health education and practice (potential patterns), 218
Human capital, relationship with job insecurity, 31

I

Interdisciplinary approach, in clinical education in private practice (commentary), 47
  in community health practice with community volunteers (potential patterns), 204
  in online learning, 78
  in rural health care education, 125
Internet, genetics-related websites (leadership development), 145
  us in physical therapy instruction, 255
Interpersonal relations, effect of resiliency training on, 178

J

Job insecurity, in medical technologists, 31
Job satisfaction, effect of resiliency training on, 178
Journal of Allied Health, online version (editorial), 165; (editorial), 225
Journal writing, 17

Genetics, Internet websites related to (leadership development), 145

H

Health care policy, in Europe (international perspective), 139
Health care system, reform of, in the United Kingdom (international perspectives), 42
Health information management, personnel shortage in, 167
Health literacy (leadership development), 150
Health professions, common issues and approaches in (editorial), 87
Health promotion, in allied health education and practice (potential patterns), 218
Human capital, relationship with job insecurity, 31

I

Interdisciplinary approach, in clinical education in private practice (commentary), 47
  in community health practice with community volunteers (potential patterns), 204
  in online learning, 78
  in rural health care education, 125
Internet, genetics-related websites (leadership development), 145
  us in physical therapy instruction, 255
Interpersonal relations, effect of resiliency training on, 178

J

Job insecurity, in medical technologists, 31
Job satisfaction, effect of resiliency training on, 178
Journal of Allied Health, online version (editorial), 165; (editorial), 225
Journal writing, 17

L

Lateness behavior, avoidable *vs.* nonavoidable, 238
Leadership development, in allied health deans, 113
Coalition of Allied Health Leaderships projects in (leadership development), 144; 145; 150
Learning communities (research note), 55
Learning styles, of athletic training students (research note), 200
pairing of (research note), 156
Legislation, Medicare Prescription Drug Improvement and Modernization Act of 2003 (view from Washington), 89
Locus of control, effect of resiliency training on, 178

M

Medical model, of disability (commentary), 184
Medical technologists, job insecurity in, 31
Medicare Prescription Drug Improvement and Modernization Act of 2003 (view from Washington), 89
Mentoring, role in leadership development, 113
Models, of disability (commentary), 184
Motor Assessment Scale (research note), 267
Musculoskeletal conditions, physical therapy students' study of, 17

N

Nanotechnology (view from Washington), 227
National Health Service (U.K.), Prime Ministers' reform of, 42
Neural tube defects, folic acid-based prevention of (research note), 194
Neuroscience education, outreach programs in, 174

O

Occupational therapists, research utilization by, 3
Occupational therapy education, disability studies in (commentary), 184
Occupational therapy students, attitudes toward interprofessional practice, 125
clinical practice with community volunteers (potential patterns), 204
discomfort with patients' sexual issues (research note), 189
ethical decision making by, 24
participation in learning communities (research note), 55
private practice-based clinical education of (commentary), 47
Outcome assessment, process of, 104
Outreach programs, in health science, 174

P

Patients, sexual behavior and issues of (research note), 189
Pedometers (research note), 278
Pharmacy students, attitudes toward interprofessional practice, 125
Physical activity interventions, pedometer use in (research note), 278
Physical therapists, research utilization by, 3
Physical therapy, clinical applicability of research evidence in, 230
Physical therapy assistant programs, computer-assisted instruction in, 255
Physical therapy programs, computer-assisted instruction in, 255
new faculty's professional development in (research note), 271
Physical therapy students, attitudes toward interprofessional practice, 125
attitudes toward physical therapy assistants, 10
clinical performance evaluation in (research note), 62
clinical practice with community volunteers (potential patterns), 204
discomfort with patients' sexual issues (research note), 189
ethical decision making by, 24
Motor Assessment Scale scoring ability of (research note), 267
private practice-based clinical education of (commentary), 47
reflective journal writing by, 17
Prerequisites, Internet-based finder of (potential patterns), 75
Prescription drugs, Medicare Prescription Drug Improvement and Modernization Act of 2003 (view from Washington), 89
Prevention, in allied health education and practice (potential patterns), 218
Preventive interventions, for neural tube defects (research note), 194
Private practice, clinical education in (commentary), 47
Problem-based learning, effect on students' ratings of faculty (research note), 70
Professional development, of deans of schools of allied health professions, 113
of new physical therapy faculty (research note), 271
Program directors, attitudes of
toward new faculty's professional development (research note), 271
toward specialized accreditation, 248
Put Prevention Into Practice Program (potential patterns), 218

R

Radiologic sciences, subspecialization in, 95
Radiologic sciences students, discomfort with patients' sexual issues (research note), 189
Rating scales, for Internet genetics-related websites (leadership development), 145
Rehabilitation (editorial), 1
Research, clinical applicability of, in physical therapy, 230
integration into allied health care curriculum (commentary), 132
utilization by rehabilitation professionals, 3
Resiliency training, in the work site, 178
Risk reduction, in allied health education and practice (potential patterns), 218
Rural health care, interprofessional training in, 125

S

Self-esteem, effect of resiliency training on, 178
Self-reports, of lateness and absence behaviors, 238
Sexuality education programs (research note), 189
Sociopolitical model, of disability (commentary), 184
Speech-language pathologists, research utilization by, 3
Stroke, Motor Assessment Scale evaluation of (research note), 267
Students, attitudes toward interprofessional practice, 125
discomfort with patients' sexual issues (research note), 189
paring of learning styles among (research note), 156
rating of faculty by (research note), 70
Subspecialization, in cardiovascular-interventional technology, 95
Surveys, of absence and lateness behaviors, 238
of attitudes toward specialized accreditation, 248
of health literacy (leadership development), 150

T

Teacher educators, role in health science outreach programs, 174
Teaching, student-centered *vs.* teacher-centered (research note), 200
Team approach, paired learning styles in (research note), 156
Test performance, effect of instruction style on (research note), 200

U

United Kingdom, National Health Service reform in (international perspectives), 42
research culture in (commentary), 132
University of Oklahoma College of Allied Health, Internet-based prerequisite finder of (potential patterns), 75

V

Values, effects on dietetics students' career choices (research note), 51
Volunteers, in community health clinical practice (potential patterns), 204

W

Work conditions, relationship with job insecurity, 31
Work exhaustion, relationship with absence and lateness behaviors, 238
Workforce shortage, in health information management, 167
Workload, of new faculty members (research note), 271
Workplace, resiliency training in, 178
